

IEC Chesapeake Apprenticeship & Training presents:

SOLAR (PV) DESIGN AND INSTALLATION
Part 1 of a 2-Part Training set

At IEC Chesapeake – Odenton Training Center
1424 Odenton Road, Odenton, MD 21113

This seminar is the first of a 2-part series designed to teach students about design process of a common grid-tied photovoltaic (PV) power system. The scope of this class covers the responsibilities of the sales person, including site measurements and preparing the system design and materials list to be handed over to the installation technician.

Part 1 will cover:

- Understanding the nature of PV and how it works
- Identifying the optimal location for solar arrays, inverters and wire runs
- Estimating sizing requirements for major components
- Selecting major components and balance of system equipment required for installation

The instructor, Jeff Gilbert is President of Azimuth Solar Training LLC, a leading mid-Atlantic renewable energy training provider and program developer. He brings over 17 years of experience in the renewable energy industry and has been NABCEP certified for both PV and solar thermal.

Tuesday, December 7, 2010
