

The 2021 Maryland General Assembly Session is on the horizon!

Stay focused on clean energy and climate change regulations being contemplated in the coming months.

Join Maryland Clean Energy Center (MCEC) and special guest legislators for the

2021 POLICY WATCH WEBINAR SERIES

MCEC is hosting six virtual discussion sessions from January to April, 2021, as part of our annual Policy Watch activities. Engaged stakeholders can participate in any or all to better navigate through a legislative session facing unprecedented challenges for health and safety, and economic revitalization. MCEC will monitor and report to the legislation that has the potential to impact Maryland's advanced energy economy, so you can respond.

Sessions will focus on:

-  Climate Action Strategies & Environmental Priorities
-  Leveraging Investment & Advancing Clean Energy Innovation
-  Response Strategies for the Minimum Order Price Rule (MOPR)
-  Transportation Electrification
-  Energy Efficiency for Equity & Inclusion
-  A Session Wrap-up Report of Clean Energy Sector Status Updates

NOW SEEKING SPONSORS!

We need your sponsorship to demonstrate the diversity and reach of the energy industry sector in Maryland to policymakers! Sabrina Bachman, MCEC's Communications Director: sbachman@mdcleanenergy.org or 301-314-6066

The Maryland Clean Energy Center (MCEC) was created as an instrumentality of state by the Maryland General Assembly, in 2008, with an economic development mission to advance the adoption of clean energy and energy efficiency products, services, and technologies. MCEC also supports innovation and technology deployment to help achieve state renewable energy generation, energy conservation, and greenhouse gas emission reduction goals. MCEC uses statute enabled financing authority to leverage private capital investments and provide financing to assist residential, commercial, municipal, and not-for-profit consumers.
