SECTION I. PROCUREMENT OBJECTIVE

1.1 Introduction and Background Info

The Maryland Clean Energy Center (MCEC) is a green bank and corporate instrumentality of the state of Maryland which advances the adoption of clean energy generation and storage, as well as energy efficiency projects, products, services and technologies. MCEC leverages private capital to help homeowners, businesses, and government entities reduce energy costs. MCEC and the Clients we support have established policy mandates and developed goals to significantly reduce greenhouse gas emissions in the near term, and transition rapidly to clean energy supply for both transportation and the built environment.

MCEC is excited to be working with Baltimore County to facilitate an Electric Vehicle Infrastructure Assessment which will provide the County with an understanding of the following:

- Electric vehicle supply equipment (EVSE);
- Site evaluation and station locating;
- Vehicle replacement scheduling, and;
- Other parameters as specified in the Scope of Services, Section III of this RFP.

About Baltimore County

With nationally recognized public schools, 20 colleges in the region to provide a skilled workforce, abundant recreational opportunities and tight-knit communities, Baltimore County has something for everyone. Located in the geographic center of Maryland, Baltimore County almost entirely surrounds the city of Baltimore, which was split off as an independent city in 1851. The County is the largest jurisdiction in the metropolitan area, with a population of more than 800,000. Baltimore County and its County Seat – Towson – form a diverse business community located centrally along I-95, directly accessing the East Coast market. With 612 square miles of land and a deep-water port, Baltimore County has the third largest land area, the third largest population and the second highest number of jobs in Maryland. The County consistently receives AAA bond ratings from Moody's Fitch Ratings and Standard & Poor's.

The County Executive has set a goal of transitioning the County government's vehicle fleet toward electric and hybrid vehicles to reduce greenhouse gas emissions and fossil fuel energy consumption, demonstrate regional leadership in addressing climate change, and save long-term operational costs associated with fuel and maintenance. Baltimore County Executive Order 2021-024 calls for the electrification of 10% of the County's passenger vehicles and light-duty trucks, as well as the installation of the necessary charging infrastructure to support these vehicles, by 2030.

The current State of Maryland greenhouse gas (GHG) emissions reductions goals formalized via the Climate Solutions Now Act (CSNA) require a 60% GHG reduction by 2031, and net-zero emissions by 2045. Vehicle electrification is a primary strategy for reducing carbon emissions. Maryland continues to experience significant growth in EV ownership. This growth is supported by lower vehicle costs, state and federal incentives, the rise in the availability of makes and models, as well as the increasing availability of charging infrastructure across the State.

Regarding Baltimore County government: The Vehicle Operations and Maintenance (VOM) division, within the Office of Budget and Finance (OBF), is responsible for the acquisition and maintenance of approximately 1,486 automobiles and light duty trucks under 14,000 pounds of gross vehicle weight per unit. Of this number, roughly 1,062 vehicles are considered passenger vehicles. VOM serves most County agencies with fleet vehicles, as well as Public Safety, Police, Fire, Sheriff, and the Department of Corrections.

The Equipment Maintenance (EM) division, within the Bureau of Highways and Equipment Maintenance in the Department of Public Works and Transportation (DPWT), provides comprehensive preventive maintenance and repair services for the County’s fleet. EM purchases and maintains the County’s fire and emergency medical services apparatus (engines, ambulances, tractor-drawn aerial ladders and specialty units), 381 service and work trucks, 234 pieces of heavy equipment (front end loaders, backhoes, tractors, and mowers), and nearly 2,600 pieces of small-engine equipment (push mowers, string trimmers, chain saws, and blowers).

B. CERTIFICATION REGARDING COMMERCIAL NONDISCRIMINATION

The undersigned Bidder/Offeror hereby certifies and agrees that the following information is correct: In preparing its Bid/Proposal on this project, the Bidder/Offeror has considered all Proposals submitted from qualified, potential subcontractors and suppliers, and has not engaged in "discrimination" as defined in § 19-103 of the State Finance and Procurement Article of the Annotated Code of Maryland.

"Discrimination" means any disadvantage, difference, distinction, or preference in the solicitation, selection, hiring, or commercial treatment of a vendor, subcontractor, or commercial customer on the basis of race, color, religion, ancestry, or national origin, sex, age, marital status, sexual orientation, sexual identity, or on the basis of disability or any otherwise unlawful use of characteristics regarding the vendor's, supplier's, or commercial customer's employees or owners. "Discrimination" also includes retaliating against any person or other entity for reporting any incident of "discrimination". Without limiting any other provision of the solicitation on this project, it is understood that, if the certification is false, such false certification constitutes grounds for the State to reject the Bid/Proposal submitted by the Bidder/Offeror on this project, and terminate any contract awarded based on the Bid/Proposal. As part of its Bid/Proposal, the Bidder/Offeror herewith submits a list of all instances within the past 4 years where there has been a final adjudicated determination in a legal or administrative proceeding in the State of Maryland that the Bidder/Offeror discriminated against subcontractors, vendors, suppliers, or commercial customers, and a description of the status or resolution of that determination, including any remedial action taken. Bidder/Offeror agrees to comply in all respects with the State's Commercial Nondiscrimination Policy as described under Title 19 of the State Finance and Procurement Article of the Annotated Code of Maryland.

The undersigned Bidder/Offeror hereby certifies and agrees that it has fully complied with the State Minority Business Enterprise Law, State Finance and Procurement Article, § 14-308(a)(2), Annotated Code of Maryland, which provides that, except as otherwise provided by law, a contractor may not identify a certified minority business enterprise in a Bid/Proposal and:

- (1) Fail to request, receive, or otherwise obtain authorization from the certified minority business enterprise to identify the certified minority Proposal;
- (2) Fail to notify the certified minority business enterprise before execution of the contract of its inclusion in the Bid/Proposal;
- (3) Fail to use the certified minority business enterprise in the performance of the contract; or
- (4) Pay the certified minority business enterprise solely for the use of its name in the Bid/Proposal.

Without limiting any other provision of the solicitation on this project, it is understood that if the certification is false, such false certification constitutes grounds for the State to reject the Bid/Proposal submitted by the Bidder/Offeror on this project, and terminate any contract awarded based on the Bid/Proposal.

B-2. CERTIFICATION REGARDING VETERAN-OWNED SMALL BUSINESS ENTERPRISES.

6. Disputes. This Agreement shall be deemed subject to Title 15, Subtitle 2 (Dispute Resolution), State Finance and Procurement Article, Maryland Code and to COMAR 21.10 (Administrative and Civil Remedies). Pending resolution of a claim, Contractor must proceed diligently with the performance of the Agreement in accordance with the Contract Officer's decision. Unless a lesser period is provided by law, Contractor must file a written notice of claim with the Contract Officer within thirty days after the basis for the claim is known or should have been known, whichever is earlier. Cancellation does not affect either MCEC's rights or Contractor's rights under any termination clause in this Agreement. The effect of cancellation of the Agreement hereunder will be to discharge both Contractor and MCEC from future performance of the Agreement, but not from their rights and obligations existing at the time of termination. Contractor agrees that at all times during the term of this Agreement and thereafter, the works created and services performed shall be “works made for hire” as that term is interpreted under copyright law. To the extent that any products created under this Agreement are not MCEC works for hire, Contractor hereby transfers and assigns to MCEC all of its rights, title and interest (including all intellectual property rights) to all such products created under this Agreement, and will cooperate reasonably with MCEC in effectuating and registering any necessary assignments. (b) Third party; Indemnification.
