SECTION I. INTRODUCTION

1.1 Background

The Maryland Clean Energy Center (“MCEC”), acting as a statewide green bank, is seeking proposals from firms interested in providing technical and commercial due diligence services to enable successful investment and management of the Climate Catalytic Capital (C3) Fund (the “Fund”) operated as a subsidiary entity of MCEC.

About the Maryland Clean Energy Center

MCEC was established as a statewide green bank to leverage private capital with public investment to help achieve clean energy and greenhouse gas mitigation goals in Maryland. MCEC offers neutral third-party technical and financing capabilities to help partners implement energy, decarbonization, and climate support measures. MCEC has the capacity to facilitate desired outcomes by providing procurement, project design, development, and financing services to expedite project implementation.

Since inception in 2009, MCEC has leveraged over \$198 million in private capital investment with approximately \$13.4 million in public funds and more than \$48 million in bond financing to implement clean energy, climate resilience, and greenhouse reduction measures.

MCEC is governed by a Board of Directors that consists of 9 individuals that bring a wide range of perspectives and experience to MCEC’s operations. MCEC employs a small staff and the Attorney General’s Office provides legal services to the organization.

About the Climate Catalytic Capital (C3) Fund

The Climate Solutions Now Act (the “CSNA”) of 2022, passed by the Maryland General Assembly and adopted in statute, mandated the creation of the Climate Catalytic Capital Fund to increase private capital investment in technology deployment and development intended to reduce greenhouse gas emissions and mitigate the impact of climate change. The law provides for an annual allocation of \$5M over three years in the Governor’s Budget.

Measures eligible for the use of funds include the following:

- Facilitate the electrification of the transportation sector and the use of sustainable alternative fuels in aviation
- Enable improvements in energy management and efficiency to reduce GHG emissions from buildings
- Expand the deployment of clean energy generation and energy storage capacity
- Target the implementation of energy weatherization measures for low-to-moderate-income households
- Optimize the economic, health, social, and environmental value of community-scale infrastructure for resilience and energy equity
- Allow the deployment of advanced clean energy technology
- Provide for the creation of a Maryland Green Bond Program

Additional considerations include:

- Forty percent (40%) of the funds must be used to assist low-income households and communities in the state to access decarbonization solutions and strategies
- Not more than 5% of the Fund balance may be used for administrative purposes
- The Fund may not be used for a project to install new equipment that uses fossil fuels or improve the efficiency of existing equipment that uses fossil fuels

The Fund may consist of the following:

- Money appropriated in the state budget
- Private contributions
- Federal Grants and programs
- Proceeds from the sale, disposition, lease, or rental of collateral related to financing made available from the Fund
- Repayment of financing made from the Fund
- Returns from or recovery of any financing made from the Fund
- Proceeds from the sale of any financing made, or assets acquired with proceeds from the Fund
- Interest earnings on the money in the Fund
- Any other money from any other source accepted to benefit the Fund

The CSNA statute requires the MCEC Board of Directors to appoint an Investment Oversight Committee (the “IOC”) to manage the Fund, particularly seeking those with qualifications and experience in environmental finance and investment. This body is responsible for managing the Fund and the use of the funds therein. The IOC will:

- Evaluate and coordinate financing for qualified projects and clean energy technologies related to the purposes specified,
- Facilitate efficient tax equity markets for qualified projects,
- Secure private investment capital for the financing of qualified projects,
- Make grants to other green banks in the State of Maryland for the purpose of financing qualified projects, and
- Administer the Fund and activities of the center in carrying out this part.

Procurement Objective

MCEC is requesting responses from individuals, firms and/or partnerships interested in providing services in the below specific categories. Offerors are not required to provide all services specified below and may submit proposals focused on a specific service or services:

- (3) Training of MCEC staff in technical and commercial due diligence best practices;

(b) MCEC retains the unilateral right to require changes in the services to be rendered, so long as the changes are within the general scope of work to be performed hereunder.

2. Term of Agreement. Performance under this Agreement commences on _____, 202_, and continues until agreed upon services are completed, but in any case no later than _____, 202_.

3. Compensation and Method of Payment.

(a) Compensation. MCEC shall compensate Contractor for services satisfactorily performed at the rates set forth in Exhibit A. The total cost to MCEC for the services to be provided by Contractor under this Agreement may not exceed _____ Dollars (\$_____).

(b) Method of Payment. MCEC shall pay Contractor no later than thirty days after MCEC receives a proper invoice from Contractor, which invoices shall be tendered at monthly intervals. Charges for late payment of invoices, other than as prescribed by Title 15, Subtitle 1, State Finance and Procurement Article, Maryland Code, are prohibited.

4. Contract Officer. MCEC designates _____ to serve as Contract Officer for this Agreement. All contact between MCEC and Contractor regarding all matters relative to this Agreement shall be coordinated through the Contract Officer.

5. Responsibility of Contractor. Contractor shall perform the services with that standard of care, skill, and diligence normally provided in the performance of similar services.

6. Disputes. This Agreement shall be deemed subject to Title 15, Subtitle 2 (Dispute Resolution), State Finance and Procurement Article, Maryland Code and to COMAR 21.10 (Administrative and Civil Remedies). Pending resolution of a claim, Contractor must proceed diligently with the performance of the Agreement in accordance with the Contract Officer's decision. Unless a lesser period is provided by law, Contractor must file a written notice of claim with the Contract Officer within thirty days after the basis for the claim is known or should have been known, whichever is earlier. Contemporaneously with or within thirty days of the filing of a notice of claim, but no later than the date of final payment under the Agreement, Contractor must submit to the Contract Officer its written claim containing the information specified in COMAR 21.10.04.02.

7. Termination for Convenience. MCEC may terminate the performance of work under this Agreement in whole, or, from time to time, in part, whenever MCEC determines that such termination is in the best interest of MCEC. Upon receipt and acceptance of the final payment due under this Agreement in accordance with its original terms or with an early termination by MCEC, the Contractor waives any and all rights or claims arising under this Agreement, unless otherwise agreed in writing by MCEC.

10. Contingent Upon Funds. If MCEC does not have funds available for continued performance for any period of this Agreement, this Agreement must be canceled automatically as of the beginning of the period for which funds were not available. Cancellation does not affect either MCEC's rights or Contractor's rights under any termination clause in this Agreement. The effect of cancellation of the Agreement hereunder will be to discharge both Contractor and MCEC from future performance of the Agreement, but not from their rights and obligations existing at the time of termination. MCEC shall reimburse Contractor for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the Agreement. MCEC shall notify Contractor as soon as it has knowledge that funds may not be available for the continuation of this Agreement.

Contractor agrees that at all times during the term of this Agreement and thereafter, the works created and services performed shall be “works made for hire” as that term is interpreted under copyright law. To the extent that any products created under this Agreement are not MCEC works for hire, Contractor hereby transfers and assigns to MCEC all of its rights, title and interest (including all intellectual property rights) to all such products created under this Agreement, and will cooperate reasonably with MCEC in effectuating and registering any necessary assignments. (b) Third party; Indemnification. If Contractor obtains or uses for purposes of this Agreement any design, device, material, process, or work covered by patent, copyright, or trademark, Contractor shall ensure MCEC that it is licensed to possess and to use such design, device, material, process, or work.
